Kerboodle Login for Pupils: Guidance for parents

Your child has an now be given account on Kerboodle for KS3 Activate Science or KS4 AQA GCSE Sciences (9-1). Kerboodle is an online teaching and assessment website that provides support for students' learning. Your child will be able to use the resources available on the website and may be set work by their teacher(s).

How to access Kerboodle

Go to http://www.kerboodle.com

How to login in

When your child first logs in, they will be asked their username, password, and the institution code. The username and password will be based on the initials of the forename, followed by the surname.

For example, a pupil named **Joe Bloggs**, his username would be "jbloggs". By default his password is the **same** as his username so Joe would login with:

Username: jbloggs
Password: jbloggs

Everyone also needs to enter the institution code at login, which is:

LZX9

Once they have logged in pupils will then be prompted to change their password. It is important they choose a password they can remember.

Your child may have access to one or more courses on Kerboodle. They will be able to see all of the courses to which they have access once they log in. If they don't have access to any courses, they should speak to Miss McCullagh.
